

Have a Voice in How School LAND Trust Funds are Spent

Join Your School Community Council

What are School Community Councils?

School Community Councils (SCC) are a unique and powerful way for parents to have a direct impact on student achievement.

Every school must have a SCC that consists of parents, school employees and the principal. Councils are parent-majority and provide a vital perspective to the needs of the school. SCCs meet regularly to discuss various topics of interest and develop Teacher and Student Success Plans.

The Role of a School Community Council

SCCs develop a School LAND Trust Plan that uses School LAND trust funding to address a school's greatest academic need.

Parents may bring issues of concern to the council seeking solutions. The Council may choose to address them or recommend another group or entity better suited to implement solutions.

They may make recommendations to the administration of the school and district.

SCCs have a direct impact on student success

By joining your SCC you will help oversee and have a say in how

\$96 million in LAND Trust money benefits students in the state of Utah.

The average SCC spending per pupil is \$142.

How can you get involved?

See your school's website for more information about when your local School Community Council meets, former LAND trust plans, and how you can get involved.
